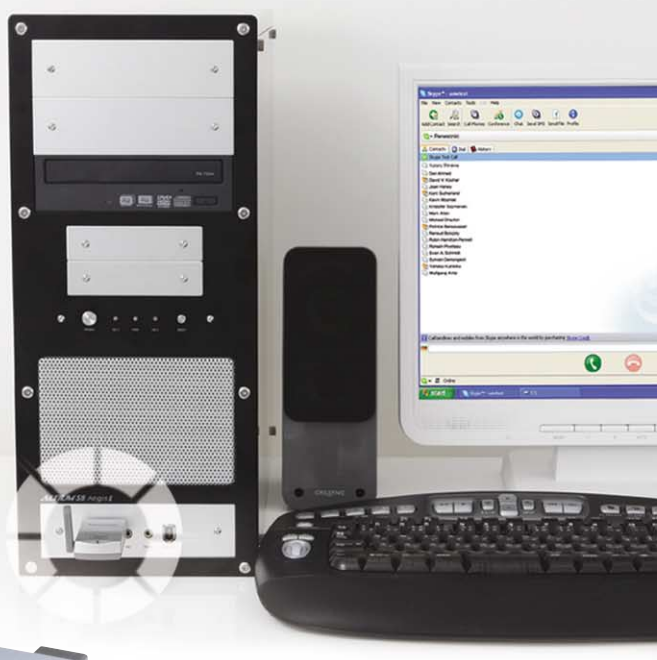
KX-TG9150

DECT Cordless Phone with
Skype™ Adaptor & Answering System

Enjoy Free Calls over the Internet.

Panasonic's KX-TG9150 comes with a Skype™ Adaptor that enables free calls over the Internet to other Skype™ subscribers. With the unit connected to your PC with USB port and Internet connection on which Skype™ is installed, you can register your phone as a Skype™ handset, for making Skype™ calls anywhere in the house. Plus, you can register up to 4 more handsets so you can take advantage of convenient features like in-house Intercom and Conference Calling. The KX-TG9150 opens up new dimensions in your home communications.



What is Skype™?

Skype™ is a computer software for making free calls over the Internet to other Skype™ subscribers. It's free, easy to use, and works with most computers. For more details please visit www.skype.com.

DECT

KX-TG9150

DECT Cordless Phone with Skype™ Adaptor & Answering System

Skype™ Compatibility

You can register your phone as a Skype™ handset and use it to make free calls over the Internet. No need to connect another USB handset / headset to your PC. You can use your Skype™ contact list and call log with your cordless phone.

Large, Easy-to-Read Colour Display

The handset's 1.5-inch display offers a bright, colourful icon-based menu that's easy to see and easy to use. Operation mode and current status are clearly displayed while in use. The background image is selectable so you can change it as you like.

Customisable Caller ID*

You can customise your Caller ID for at-a-glance identification by assigning a "category colour" from 5 different colours (blue, yellow, green, cyan and white) to be displayed on the LCD screen, as well as any of 20 pre-installed ringer sounds.

Digital Answering System (Landline call only)

About 40 minutes recording time, with time / day stamp that records reception time and keeps track of the total number of messages. Buttons on the base unit provide easy control over all operations.

Recordable Customised Ringer

Use your favorite songs or sounds as your telephone ringer. Just connect the supplied audio cable to your music player and record the audio you want to use as the ringer. (Recording Time : About 4 min. 30 sec.)
